FAX NO: 02 4390 4447 **DATE:** 22-8-2007

FROM: Les Lee **REF:** Gas cylinder test station stamp

Dear John

All gas cylinder test stations certified by SAI Global use a uniform stamp. The stamp consists of the outline of a gas cylinder and inside it has the test station's approval number.

The nominal size of the stamp is 12mm x 7mm. Other sizes may be used depending on the size of the cylinder to be stamped, providing the number remains legible and the width to length ratio is maintained as shown below.

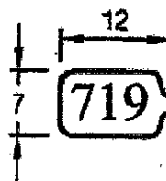

A stamp manufacturer of your choice may be used, however, details of two manufacturers recommended by a number of test stations is shown below for your information.

Unimark
Contact: Scott Ferguson
Ph. (03) 9450 6666
Fx. (03) 9450 6699
Email: s_ferguson@unimark.com.au

Darcy Engraving P/L
Contact: Peter McGregor
Ph. (02) 9558 38051
Fx. (02) 9558 5894
Email: info@darcyengineering.com.au

Your test station number on the Certificate of Conformity will actually be GCT20719 but we abbreviate to the last 3 digits for the stamp.

The stamp with your test station's approval number is shown below.

All dimensions in millimetres (drawing not to scale)

Numbering to run left to right with neck of cylinder on RHS

Regards

A handwritten signature in black ink, appearing to read "L. Lee".
