

If your aged care facility does not have a sprinkler system, the government requires you to put up the following ...

NOTICE

THIS FACILITY DOES NOT HAVE A FIRE SPRINKLER SYSTEM INSTALLED IN ACCORDANCE WITH THE ENVIRONMENTAL PLANNING & ASSESSMENT REGULATION 2000. THIS REGULATION REQUIRES A FIRE SPRINKLER SYSTEM TO BE INSTALLED IN THIS FACILITY BY XXXX

Redmen can help you take it down...

Redmen can not only make you compliant but give you the peace of mind that your residents and staff are protected by a world class sprinkler system installed and maintained by a leading supplier of fire prevention services throughout Australia.

Why Redmen?

- Redmen are experienced in installing sprinkler systems in special environments, such as hospitals and aged care facilities where the minimum impact on residents and the workings of the facilities is paramount

- Our consultants work with you to ensure a seamless smooth installation
- We fully maintain our installations and provide a 24/hr 7 day a week emergency attendance facility
- Our buying power ensures a low cost solution with world class equipment. In fact we guarantee to be the most cost effective solution.

✓ Fully compliant to Australian Standards and Fire Sprinkler Standard for Nursing Homes in NSW
